Section 11 provides for the preparation by public bodies of a statutory scheme detailing the services they will provide:

- through the medium of Irish
- through the medium of English and
- through the medium of Irish and English

and the measures to be adopted to ensure that any service not provided by the body through the medium of the Irish language will be so provided within an agreed timeframe.

1.1 Guidelines for Preparation of Scheme

Section 12 of the Act provides for the preparation of guidelines by the Minister for Community Rural and Gaeltacht Affairs and their issue to public bodies to assist in the preparation of draft schemes. This scheme has been drawn-up in accordance with these guidelines.

The WDC published a notice under Section 13 of the Act on June 2006 inviting representations in relation to the preparation of the draft scheme under Section 11 from any interested parties. Two submissions were received and these have been taken into consideration when drafting this scheme.

1.2 The Content of the Language Scheme

This scheme builds on the extent to which services are currently available through Irish as a starting base. Areas for future enhancement of the services provided by the WDC are identified in the body of the scheme.

The scheme also includes a commitment to assess on an ongoing basis the level of demand for services through Irish and to ensure that the WDC continue to meet this demand in a planned, coherent and accessible way. The WDC will continue to gauge the level of demand for its services in Irish by measuring the level of queries/requests for services through Irish in a given period.

1.3 Commencement Date of Scheme

This scheme has been confirmed by the Minister for Community Rural and Gaeltacht Affairs. The scheme is commenced with effect from 10th April, 2007 and shall remain in force for a period of three years from this date or until a new
scheme has been confirmed by the Minister pursuant to Section 15 of the Act, whichever is the earlier.
